THE CLUB AT MUSTANG LAKES

Mustang Lakes is a *new* kind of country club community nestled in the natural beauty of rolling terrain and mature trees. Instead of a golf course, we have over 60 acres of open space for everyone to enjoy – including 8 lakes with waterfalls and fountains, nearly 10 miles of trails along enhanced greenbelts and even a private island! All artfully and skillfully planned around a 20-acre central park, previously the site of the main ranch home. The Club at Mustang Lakes features over 12,000 square-foot of interior space plus extensive outdoor verandas and courtyards, interior lounges, meeting rooms, party areas, a kitchen, and large state-of-the-art full-scale fitness center overlooking the lake and resort-style pool.
